moss walls

moss walls

As already stated, moss brings every interior to life. With a moss wall you give a contemporary, green accent to your home or office space.

A purely natural structure, competently shaped into a striking eye-catcher which requires no maintenance, improves acoustics and, perhaps most importantly, can be made to your specific wishes.

In our studio, where we make all of our moss walls, we give custom-made a capital C. Cover a pillar, column or a ceiling with moss?

Everything is possible; in various measurements and colours, including edge work.

On our website www.moswand.eu you can calculate what a moss wall costs in three easy steps. Of course, you can always contact us by telephone on (00 31) 495 712040 or by mail via info@moswand.eu

moss paintings

Another up-to-the-minute, exclusive, natural product; a moss painting used as a decorative medium.

The processed moss muffles sound, is anti-static, requires no daylight and is also maintenance free. Due to this, a moss painting is an excellent solution for places where there is not enough space or natural light for plants, at home as well as in the office.

Using a variety of colours, formats and edge work, you can put together your own moss painting at Moswand.eu.

logos & letters

logos & letters

Would you like to present your company logo in an original way? This is also possible at Moswand.eu.

There are various ways to leave your clients with a lasting memory of you. For example, you can have your logo inlaid in a moss wall or moss painting. Alternatively, we can design a moss wall with your logo made out of another material, such as plastic, wood or stainless steel.

Moss letters or logos? Likewise, not a problem. Depending on the type of moss you choose, we glue or staple the moss securely to the base.

room divider

room divider

With a portable moss wall, or room divider, you partition your interior space in a modern way to suit your company. Attractive and practical, offering privacy and comfort.

A partition wall with a moss covering mutes sound and ensures a natural ambiance in your office, restaurant, showroom or boardroom. Being compact, modern and uncomplicated in design, our room divider takes up little space. You will have no maintenance concerns as the moss wall attracts neither dust nor dirt particles and therefore requires no upkeep.

Our room dividers are available in the following materials:

- Reindeer moss (highest sound damping, choice of 5 basic colours.)
- Pillow moss
- Flat moss
- Mixture of pillow and flat moss
- Mixture of moss, wood or bamboo (amongst others)

The advantages of a room divider:

- More privacy
- Attractive, natural appearance
- Sound dampening
- Compact
- Maintenance free
- Fire retardant
- Available in various sizes and colours
- Mobile

Moswand.eu uses the best possible, durable raw materials which have a very high “moss density” and have undergone a preparation technique which ensures the longest lifespan. For the mounting of reindeer moss we use 2,000-3,000 staples which results in a guaranteed, permanent stability. Pillow moss and flat moss are glued.

Good to know:

- The moss is not alive any more, it is prepared and has high acoustic damping properties.
- Our moss walls are basically maintenance free and remain good for many years.
- The moss wall does not have to be sprayed.
- Moss has a natural scent. The scent disappears gradually and is totally harmless.
- Moss walls keep their colour for a long time however bright (sun)light, certainly at close range from the moss wall, can speed up the discolouration process.
- Because reindeer moss is a natural product, there are colour nuances in the moss. In order to prevent colour variation, we do not make products in advance and use for this the same moss order.
- Production and delivery are on average 2-6 weeks, depending on the availability of the moss.
- Custom work and special products are available on request.
